Swift Energy is proud to supply our Distribution Boards to the world . rst FLNG Satu project

The Petronas Floating Liquefied Natural Gas (PFLNG) Satu, the Malaysian oil and gas company's **first** FLNG facility, loaded its **first** cargo at the Kanowit gas field, offshore Miri, Sarawak on April 1, 2017.

The . rst cargo was fully loaded onto the LNG carrier Seri Camellia which is expected to set sail for a South Asian market.

"This accomplishment effectively demonstrates PETRONAS' proven technology and capability of adapting a conventionally land-based installation to a floating LNG facility, a game-changer in today's LNG business landscape," said Petronas President and Group Chief Executive Officer, Datuk Wan Zulkiflee Wan Ariffin.

Manned by 145 crew onboard, PFLNG Satu is designed for water-depths of between 70 meters and 200 meters and possesses a processing capacity of 1.2 million tons per annum (mtpa).

Swift Energy is proud to supply our Distribution Boards to this world's **first** Floating Liquefied Natural Gas (FLNG) facility.
